

*My gift to the
child Jesus this
year will be:*

*Bringing the presence of Jesus to
those in their homes, in local
hospitals, and care centers.*

Currently parishioners are bringing communion to a number of local care centers. Deacon Neal visits Friendship Arms, a couple of teams visit Crescent Cities Center and some other centers. We would like to expand our service to include Prince George's Community Hospital and a couple of other assisted living centers. We are also looking for volunteers who will take communion to people in their homes on a short term basis.

Is God calling you to bring the Living Presence of His Son to those confined to the Hospital and other Centers? Would you be willing to visit people in their homes?

We would like to expand our ministries by Easter. There will be training provided by St. Jeromes. Each institution may also provide their own training, unique to their location.

If God is calling you to this ministry, please sign up during the Epiphany Masses or contact Fr. Scott at shahn@stjeromes.org
